

Week 48

Another Schneeberg lace edging this week and also next week. Then we move on to another lace type. This week the design is mine.

We need 8 pairs of bobbins with DMC fil de dentelle 80 or similar.

The difficulties this week are the sharp corners while changing from cloth stitch into whole stitch and vice versa. Look at the drawings for the way of working these corners:

Have fun with this forth edging. Next week the last edging in Schneeberg lace.
