

Week 18

The next 5 weeks we will publish Torchon laces. The first is a simple edging with scallops, diamond in cloth stitch, honeycomb and a gimp. I don't know, who designed this edging. It was given to me by a student. You need 15 pairs of bobbins with DMC fil de dentelle 80 or Ritter silk 100/3 and 1 pair with a gimp. Cotton perlé nbr. 8 or silk floss can be used as a gimp.

There are no real problems in this edging. Work the outer pair of the scallop always in whole stitch. For the diagram see below.

Have fun with the edging of this week.
